

MARKET BOI

Investor Equity Participation Policy

AI-Powered Marketplace & Local Services Platform

EXECUTIVE SUMMARY

Market Boi is an AI-powered marketplace and local services platform designed to digitize traditional African market shopping.

The platform connects:

- Customers
- Field Agents
- Logistics Agents
- Local Market Traders
- Service Providers

Through one unified ecosystem, Market Boi enables customers to purchase fresh market products, household goods, and local services without physically visiting traditional markets.

Our mission is to become Africa's leading neighborhood commerce platform while creating employment opportunities and empowering local economies.

FOUNDER'S VISION

Market Boi is not merely a delivery platform.

It is a digital infrastructure designed to modernize traditional African markets while preserving their economic importance.

Our vision is to empower communities, create employment opportunities, increase market accessibility, and build a scalable technology ecosystem capable of serving millions of households across Africa.

By combining human expertise, local commerce, logistics, and artificial intelligence, Market Boi aims to become the leading neighborhood commerce platform on the continent.
